Subject: HB 395 House Ag.

Although Vito and John Borgreen are in town testifying, I am home sick but trying to help. HB 395 is up in House Ag today and I am not sure we have enough bodies to get there. We do not like the change in composition in the livestock loss board. Please ask that the board composition remain with 3 FWP members so sportsmen are represented and so there is some talk of preventative measures instead of just killing and paying.

Thank you for your help,

Joe Perry
